

Salvation Army Trucks Canvass City For Salvage

Salvation Army Red Shield trucks are calling at Torrance homes this week to collect cast-off articles which local residents are contributing in the annual Salvage Week campaign. The

drive will continue through Saturday. The out-of-use articles will be reconditioned in workshops of the Salvation Army Social Service Center which serves this area, providing food, shelter and financial aid to men who are unable to obtain employment in private industry because of their handicaps.

During the past year these men were given a record high of 261,640 hours of occupational therapy, 58,704 meals and 19,092 lodgings through a social rehabilitation program which is maintained solely by the cast-off articles. In addition, thousands of dollars worth of food, clothing and household articles went directly to needy families.

The center continuously needs discarded but still usable clothing, shoes, furniture, bedding, dishes, toys, stoves, radios, appliances, bric-a-brac, bicycles, rugs, rags and miscellaneous articles to continue the program. J. Hugh Sherley Jr., chairman of the citizens' committee assisting in the salvage campaign, urged local residents who have not yet made contributions to telephone Fairfax 8-1635 to bring a Red Shield truck to collect castoff articles.

To Obtain Land Bordering Slough

The Los Angeles City Recreation and Park Commission this week approved and sent to the City Council the Bureau of Right of Way and Land's recommendation that immediate steps be taken to acquire the unincorporated land bordering Bixby Slough with funds appropriated by the Council and allocated by the County of Los Angeles.

The Council has appropriated \$100,000 and the County Board of Supervisors has allocated \$50,000 for the acquisition phase of the development of the aquatic center in Wilmington to be known as Harbor Park.

The Recreation and Park Commission also requested the Bureau of Right of Way and Land to continue negotiations with the California State Wildlife Conservation Commission, which by resolution has allocated \$100,000 for purchase of the submerged portion of Bixby Slough.

According to the Recreation and Park Department, certain legal technicalities have delayed making available the State's allocation. The action taken by the Recreation and Park Commission will speed the project, the Department said.

Council President John S. Gibson Jr., who represents the 15th District, was on hand for the Commission's discussion.
